Graduating Senior Survey

Office of Institutional Research and Assessment

INTRODUCTION

The *Graduating Senior Survey* has been administered at the University since Spring 2002. The instrument covers a wide variety of topics. First, information about the general knowledge, skills, personal development and professional growth of the students is questioned. Second, perceptions regarding major and core courses, faculty, instruction, advising, facilities, campus services and opportunities, and the overall intellectual environment at UA are requested. Third, extracurricular information about participation in clubs and organizations, and one's work status throughout college is sought. Lastly, the students' job search and post-graduation plans.

There is also ample opportunity to expand upon a response with open-ended questions.

The Office of Institutional Research and Assessment (OIRA) is responsible for the administration, tabulation, and dissemination of the results.

While the data disseminated after the first administration in May 2002 has proven to be quite valuable and insightful to many on campus there remains a concern about the response rate. The response rate for the initial May 2002 administration was 39%. The response rate afterwards, however, dropped substantially to a low of 22.5% for the 2005-06 academic year. OIRA continues to try and get the colleges, and even the departments and programs, more involved in encouraging their soon-to-be graduates to complete the instrument. The response rate increased to 32.2% for the 2009-10 academic year due to better and extra email notification techniques, but dropped again to 27.2% for this current 2013-14 administration.

DATA COLLECTION & RESPONDENT CHARACTERISTICS

Data were collected using web-based submission. Students received email solicitations at the end of their last term or just after graduation. In total, 1,444 graduating undergraduate students completed the survey out of a total of 5,311 that graduated during the 2013-14 academic year, for a 27.2% response rate.

Survey Responses by Graduation Term

	Survey N	Grad Total	Response Rate
2013 Summer Term	230	952	24.2%
2013 Fall Term	416	1,634	25.5%
2014 Spring Term	798	2,725	29.3%
	1,444	5,311	27.2%

Grad. Total = Number of total graduates

After the academic year ended, the Office of Institutional Research and Assessment provided demographic and academic information on all undergraduate graduates. The 1,444 respondents were broken down into various

demographic and academic categories for comparison with all 5,311 undergraduate graduates. This was done to discern how representative the respondents were to the entire graduating population. These categories included sex, ethnicity, and major college.

Respondent vs. Population Comparison

Note: N = Number of Respondents, R% = Percent of Respondents, All% = Percent for All Graduates
Multiple ethnicities can be selected.

SURVEY RESULTS

The results of the survey are broken down for each of the eight academic colleges and schools at UA in this report.

The survey is reproduced in the writeup. Percentages of structured responses are reported in tables, while students' remarks to open-ended questions are listed and highlighted in *red italic text*. An ID number is provided each student to allow comparisons and context among

their open-ended responses. For example, all open-ended responses for each number are given by the same graduating student. The number of respondents (N) for each structured item is given.
