MISSION OF THE UNIVERSITY OF ALABAMA

The University of Alabama, the State of Alabama's oldest public university, is a senior comprehensive doctoral level institution. The University was established by constitutional provision under statutory mandates and authorizations. Its mission is to advance the intellectual and social condition of the people of the State through quality programs of teaching, research, and service.

Activities to Support the Mission

The University of Alabama's activities emerge from a broad range of research and creative activities, many of which are recognized for their contributions to the economic, technological, and cultural growth of the State. Research and creative activity yields continuing stimulation for the instructional programs offered by the University's colleges and schools, supported by The Amelia Gorgas Library, a member of the Association of Research Libraries. At the undergraduate level, the University offers a broad range of baccalaureate programs in the arts and humanities, science and technology, pre-professional, and professional fields. A University-wide core curriculum provides a general education component as the keystone of every undergraduate program. Graduate programs, built on these undergraduate foundations, concentrate on the development of original scholarship, research, and creative activity. Professional programs, including the State's only public law school, prepare students with high levels of competence and for leadership roles. As one of the major residential campuses in the State, the University enhances the academic and personal growth of its students through its on-campus environment. Recognizing that education is a lifelong endeavor, the University offers an array of educational opportunities for non-traditional students.

The University's research, creative activities, and instructional programs form a foundation for extensive service activities, establishing a number of partnerships with business, non-profit organizations, and government through applications of new knowledge. These relationships often extend beyond the bounds of the State as the University assists developmental efforts at regional, national, and international levels.

Brief Profile of The University

Official Name: The University of Alabama

History/Location: In 1819, the Congress of the United States donated 46,000 acres of land within the State of Alabama for the endowment of a seminary of learning. The General Assembly of Alabama created the Board of Trustees in 1821, and on April 18, 1831, the University was opened for admission of students. On April 4, 1865, most of the University buildings were burned to the ground by a body of federal cavalry. The new buildings were begun in April 1869. On February 25, 1884, the federal government donated 22 sections of public land within the state to the University in restitution of its loss in buildings and equipment when the campus was destroyed in 1865. The institution is located in Tuscaloosa, a west central Alabama city of approximately 78,000 residents. University grounds comprise approximately 1,000 acres.

Type of Control: The State of Alabama chartered The University of Alabama (UA) with authority vested in a Board of Trustees that is self-perpetuating. The current Board elects new trustees from congressional districts, subject to confirmation by the State Senate.

The total library system holds approximately 2,500,000 catalogued items (maps, books, journals) and over 4,000,000 microform units.

THE UNIVERSITY OF ALABAMA MUSEUMS

These museums maintain extensive research collections, provide public education programs, and house exhibits that reflect the history and culture of Alabama. The University of Alabama Museum facilities are available for rent after-hours for special events.

UA's Alabama Museum of Natural History is located in historic Smith Hall, 427 6th Avenue, Tuscaloosa, at the northeast corner of the campus quadrangle. The Grand Gallery, surrounded by ornate Corinthian columns leading to a majestic glass roof, is one of the most beautiful interiors on The University of Alabama campus—perhaps in Alabama. It exhibits the only meteorite known to have struck a human, and fossils, rocks, and minerals from the Coal Age, Dinosaur Age, and Ice Age. The Museum's scientific collections are protected for academic research in adjacent Mary Harmon Bryant Hall but may be viewed by appointment. The ichthyology collection alone boasts more than 800,000 specimens of preserved fish!

Year-round adventures offered include field trips, workshops, presentations, school group activities, and special paleontological or archaeological projects, as well as foreign and domestic nature travel.

The Museum is open Tuesdays-Saturdays, 10 a.m. - 4:30 p.m. Admission is charged. For more information, visit the web site at museums.ua.edu, phone 205/348-7550, or e-mail natural.history@ua.edu.

Produced by UA's Alabama Museum of Natural History, the award-winning environmental education TV program, Discovering Alabama, airs Sundays at 6:30 a.m. and at 1 p.m. on Alabama Public Television. The series incorporates a sense of adventure and reflects the geology, geography, and flora and fauna of Alabama and their important ecological relationships as host Dr. Doug Phillips explores Alabama's forests, rivers, and wildlands on location by backcountry hiking and canoeing. Companion teacher guides are available for most episodes, and are sold on video.

For a show list, please visit the web site, www.aptv.org or www.discoveringalabama.org, phone 205/348-2039 or e-mail info@discoveringalabama.org.

Described as the Big Apple of the 14th century, UA's Moundville Archaeological Park is a 320-acre National Historic Landmark with more than 20 preserved prehistoric Indian mounds, a campground, picnic areas, a boardwalk nature trail, a theater, the Nelson B. Jones Riverbend Lodge, and the Jones Archaeological Museum that houses some of the finest Mississippian-era artifacts ever found in North America.

A variety of programs for children and adults are offered teaching Native American culture, arts, and technologies. For more information, visit the web site at museums.ua.edu, phone 205/371-2234 or 205/371-2572, or e-mail mbeo@bama.ua.edu.

The park is open daily, 8 a.m. - 8 p.m. The museum is open daily, call for times. Admission is charged.

The annual Moundville Native American Festival, held the first week of October, provides a unique and unforgettable educational experience to discover the rich culture of our region's natives, of Cherokee, Creek, Choctaw, Chickasaw, and Seminole descent who return for a "homecoming" at the Moundville site, which was America's largest city north of Mexico 800 years ago.

Built in 1829 as a dining hall for students, the Gorgas House Museum is the oldest structure on UA's campus and is one of only a few buildings to survive the burning of the campus by Union troops during the Civil War. It became known as the Gorgas House, because in the late 19th century it was the residence of former Confederate General Josiah Gorgas (1818-1883), who served briefly as president of the University, and his wife, Amelia Gayle Gorgas (1826-1913), who served as UA librarian. The house also serves as a memorial to their son, General William Crawford Gorgas (1854-1920). He is famous for eliminating yellow fever, assuring construction of the Panama Canal, and for his service as Surgeon General of the U.S. Armed Forces during WWI. The building is now a house museum and education center with collections of antiques and Gorgas family memorabilia.

The Gorgas House Museum is open Tuesday-Friday, 10 a.m. - 4 p.m. For more information, visit the web site at museums.ua.edu or phone 205/348-5906.

NATIONAL SCHOLARSHIPS The University of Alabama

The Rhodes Scholarships were established in 1903 by Cecil Rhodes, who dreamed of improving the world through the diffusion of leaders motivated to serve their contemporaries, trained in the contemplative life of the mind, and broadened by their acquaintance with one another and by their exposure to cultures different from their own. Mr. Rhodes hoped that his plan of bringing able students from throughout the English-speaking world and beyond to study at Oxford University would aid in the promotion of international understanding and peace.

The Harry S. Truman Scholarship Foundation awards scholarships to students who want to attend graduate school in preparation for careers in public service. Each year 75-80 awards are given, and winners are provided with leadership training, graduate school counseling and internship opportunities with federal agencies.

The Barry M. Goldwater Scholarship and Excellence in Education Program was established by Congress in 1986 to honor Senator Barry M. Goldwater, who served his country for 56 years as a soldier and statesman, including 30 years of service in the U.S. Senate. The purpose of the Foundation is to provide a continuing source of highly qualified scientists, mathematicians and engineers by awarding scholarships to college students who intend to pursue careers in these fields.

The All-USA College Academic Team honors full-time undergraduates who not only excel in scholarship but also extend their intellectual abilities beyond the classroom to benefit society. Criteria include grades, academic rigor, leadership, activities and most important, the student's essay describing his or her most outstanding intellectual endeavor done while in college.

The purpose of the Javits program is to carry out a coordinated program of scientifically based research, demonstration projects, innovative strategies, and similar activities designed to build and enhance the ability of elementary and secondary schools to meet the special educational needs of gifted and talented students. The major emphasis of the program is on serving students traditionally under represented in gifted and talented programs, particularly economically disadvantaged, limited English proficient, and disabled students, to help reduce the serious gap in achievement among certain groups of students at the highest levels of achievement

Two Ruth Lilly Poetry Fellowships in the amount of \$15,000 will be awarded to young poets through a national competitior sponsored by the Poetry Foundation, publishers of POETRY magazine. Established in 1989 by the Indianapolis philanthropist Ruth Lilly, the Fellowships are intended to encourage further study of and practice in writing poetry. Students must be American citizens under thirty years old and must not have published a collection of poetry or had one accepted for future publication. The Fellowship winners are announced early in the Fall

The National Oceanic & Atmospheric Administration (NOAA) Ernest F. Hollings scholarship program is designed to: (1) increase undergraduate training in oceanic and atmospheric science, research, technology, and education and foster multidisciplinary training opportunities, (2) increase public understanding and support for stewardship of the ocean and atmosphere and improve environmental literacy; (3) recruit and prepare students for public service careers with the National Oceanic and Atmospheric Administration and other natural resource and science agencies at the federal, state and local levels of government; and (4) recruit and prepare students for careers as teachers and educators in oceanic and atmospheric science and to improve scientific and environmental education in the United States

The Portz Fund is named in honor of John and Edythe Portz. Dr. John Portz was one of the founders of the National Collegiate Honors Council. Each year the NCHC gives three Portz Awards. These Portz Scholars are chosen from the national pool of Honors students of which each institution may submit only one entry. A \$250 stipend is awarded at the presentation of their papers at the NCHC conference. In order to qualify for this award, students must write a paper in either Arts & Sciences, Social & Behavioral Sciences, Creative Arts & Writing, or Interdisciplinary.

In October 2000, the Bill & Melinda Gates Foundation of Seattle, Washington, USA announced a donation to the University of Cambridge of \$210 million to establish the Gates Cambridge Trust. This benefaction creates in perpetuity an international scholarship program to enable outstanding graduate students from outside the United Kingdom to study at the University of Cambridge. The Trustees are required to award scholarships on the basis of a person's intellectual ability, leadership capacity and desire to use their knowledge to contribute to society throughout the world by providing service to their communities and applying their talents and knowledge to improve the lives of others.

Office of Information Technology

The Office of Information Technology (OIT) provides technology tools and support for faculty, staff, and students. OIT consists of the Center for Instructional Technology, which helps faculty integrate technology into the classroom; Enterprise Technology, which maintains the University's academic and administrative computing infrastructure; Network and Computing Support, which provides customer service and support; Systems Development, which develops and maintains custom administrative applications; and Telecommunication, which supplies the University's telephone service and network wiring. More information about OIT is available at http://oit.ua.edu or 348-5610.

HelpDesk Assistance

Assistance with technology-related problems is available by phone (348-4357), by e-mail (Help.Desk@ua.edu), on the HelpDesk website (http://helpdesk.ua.edu), and in person at the HelpDesk counter (A-203 Gordon Palmer Hall). The HelpDesk is open from 8:00 a.m. to 4:45 p.m. Monday through Friday.

E-Mail

All students, faculty, and staff have e-mail accounts on the central academic server (bama.ua.edu). These accounts can be accessed through a Web interface (http://mybama.ua.edu) or by using an IMAP or POP mail client. Faculty and staff may also have departmental e-mail accounts. More information is online at http://helpdesk.ua.edu/email.

myBama

OIT offers myBama, a website for faculty, staff, and students to take care of all their University business. MyBama is a portal that provides e-mail, groups, calendar, and University information as well as access to other University systems, including student information in Banner. Advising, registration, and grading are all done through myBama. The site is also customizable, so each user can specify what information he or she would like to see when signed in. The myBama site is located at http://mybama.ua.edu.

ResNet

The Office of Information Technology supports the campus Residence Hall Network (ResNet), which supplies in-room Internet connections in most residence halls. The website at http://resnet.ua.edu has more information on ResNet. Campus residences without ResNet may be able to have high-speed Internet through Comcast.

Web Publishing

OIT offers Web hosting service and assistance for faculty, staff, students, departments, and organizations. The main academic computer has Web space for every person, department, or organization that qualifies for an account. Some other servers on campus also host official University sites. OIT staff teach and support the use of a variety of editing tools, including Macromedia Dreamweaver and Microsoft FrontPage. University staff may sign up for OIT classes scheduled in conjunction with Human Resources Development. The Faculty Resource Center provides seminars, workshops, and consultations with faculty on Web publishing, as well as offering Web design services for contract. More information about Web publishing is online at http://helpdesk.ua.edu/web. Also, the Faculty Resource Center's site at http://frc.ua.edu outlines the services it offers.

Hardware Repair Service

IT Equipment Services (ITES), part of OIT's Network and Computing Support, provides hardware service and support for University computers. Microcomputer service contracts for departments and offices are available at a very reasonable price. For contracting departments, ITES assists with setups, upgrades, repairs, configurations, peripherals, and warranty inquiries.

Computer Training

In addition to Web publishing instruction, Network and Computing Support offers classes on a variety of topics, including Microsoft Office applications. Classes, scheduled through Human Resources Development, are usually taught in the Office of Information Technology training lab. This lab has twenty Dell Optiplex GX 280s with 3.2 GHz Pentium 4 processors, 1 GB RAM, and Windows XP; two iMacs with 1.8 GHz G5 processors, 1 GB RAM, and OS X; and a projector system. Human Resource Development publishes a training schedule each semester

both in print and online. More information is available on the training section of the HelpDesk website (http://helpdesk.ua.edu/training).

Office of Information Technology (continued)

Computer Labs

The University has many on-campus computer labs, which vary widely in terms of capacity, equipment, and operating hours. OIT's computer lab for student use in 127 Gordon Palmer contains thirteen Windows XP computers, one of which is wheelchair-accessible. This lab has extended operating hours, including overnight during the week. More information about campus labs is available at http://pclabs.ua.edu.

Telephone Services

The Telecommunication Department is the University's telephone company, providing telephone service to all campus offices and residence halls. It also offers long distance calling plans and cellular phone contracts. University employees may purchase personal cellular phone service at a discounted rate as part of the University's contract. Telecommunication also wires the campus network. Information about Telecommunication's services is available at http://telecom.ua.edu or 348-6300.

WebCT

WebCT is an online teaching and learning environment available for faculty. It can supplement traditional classes or replace them altogether for distance education. WebCT courses include discussion boards, chat rooms, quizzes and tests, and more. Information is online at http://webct.ua.edu.

Multimedia Services

Faculty Resource Center professionals assist with audio recording and conversion, digital photography, scanning, video production and compression, DVD authoring, and much more. The FRC's website, http://frc.ua.edu, has more details.

Computing Facilities

OIT maintains a Sun Solaris server for academic applications and network services, multiple servers for administrative applications, the campus name server, a news server, and a mailing list (LISTSERV) server. Other support services include Web hosting, backup of central servers, e-mail services, and high-speed laser printing. Remote access to the Alabama Supercomputer Authority's Cray in Huntsville is also available. More details about the University's computing resources are online at http://enterprisetech.ua.edu.

Network Infrastructure

The University of Alabama is a charter member of the Internet2 project, which supplies high-speed network access for research and teaching. The local Internet2 website at http://internet2.ua.edu gives an overview of the network and the University's connection to it. The University also participates in the Alabama Research and Education Network (AREN), a state network linking educational institutions and enabling access to the resources of the Alabama Supercomputer Authority (ASA). The ASA's website at http://www.asc.edu documents AREN local access and support. Details on the University's network can also be found at http://enterprisetech.ua.edu.

THE UNIVERSITY OF ALABAMA SPORTS BUILDINGS AND FACILITIES

Alabama's sports buildings and facilities consist of Paul W. Bryant Museum, Bryant-Denny Stadium, Sam Bailey Track Stadium, Hank Crisp Indoor Practice Facility, Coleman Coliseum, Gymnastics/Volleyball Practice Center, Thomas-Drew Practice Fields, Aquatic Center, Varsity Tennis Courts, Athletics Administration/Football Building, Sewell-Thomas Baseball Stadium, UA Women's Soccer Field, The University of Alabama Softball Complex, and Crimson Tide Golf Facilities.

Paul W. Bryant Museum - The Paul W. Bryant Museum offers over 100 years of Alabama football history and is a "must see" attraction. Drawn by the strong tradition of Alabama football, many visitors' initial contact with The University of Alabama is through the Bryant Museum experience. Guests of the museum are composed not only of fans of college football but also tourists, sports scholars, educators, school children, The University of Alabama alumni, and donors. The exhibit hall of the Bryant Museum traces the history of UA football from its introduction by William Gray Little in 1892 to the present. Crimson Tide football coaches' and players' careers, as well as highlights of Alabama's championships are featured. The press, public, and researchers rely on the Bryant Museum as a reliable source for images and information. Each year the museum adds to its extensive collection of artifacts, library, and archival materials. Staff and assistants answer over 50 requests for information and images each month. The collection is shared with the public through outreach programs, tours, and publications. Located on the University of Alabama campus across the street from Coleman Coliseum, the museum is open daily from 9:00 a.m. to 4:00 p.m. The Museum facility is available for private receptions after regular hours. A rental fee is charged. Phone: (205)348-4668 – Fax: (205)348-8883 – Web: www.bryant.ua.edu – Toll Free 1-866-772-BEAR.

Bryant-Denny Stadium – Bryant-Denny Stadium was constructed in 1929, then called Denny Stadium, with a seating capacity of 12,000. Since that time, there have been a number of expansion projects that have increased the stadium to its current seating capacity of 92,238. The most recent expansion project began following the 2004 season and was completed in August of 2006. The new addition to the north end zone includes a new home-team locker room, media suite, club level and approximately 10,000 seats. The stadium was renamed Bryant-Denny Stadium in 1975 by the Alabama State Legislature.

Sam Bailey Track and Field Stadium — Officially dedicated in 1989, Sam Bailey Stadium was named in honor of the longtime Alabama assistant coach and associate athletic director and serves as the home for the Crimson Tide track and field programs. The stadium features a 2,000-seat grandstand and pressbox. The Olympic- size track boasts eight oval lanes and up to ten lanes on the straightaways. The complex also features high-jump, long-jump and pole vault pits as well as a grass infield for all throwing events. Every year Sam Bailey Stadium plays host to more than 2,000 athletes for the Alabama Relays, one of the nation's most prestigious track and field competitions. In the spring of 2004, a new entrance to the stadium was added including wrought-iron fencing, new landscaping and a permanent ticket booth. The facility will host the 2007 SEC Outdoor Track & Field Championships in May.

<u>Hank Crisp Indoor Practice Facility</u> – The indoor practice facility houses four tennis courts, office space for the men's tennis head coach and his assistant, restrooms, and a tennis player's lounge area. The facility also features a 110-yard artificial turf football practice field, which is fully heated and air-conditioned.

Coleman Coliseum – Memorial Coliseum, which opened on January 30, 1968, was renamed Coleman Coliseum in February 1988. It is the home of Alabama men's and women's basketball, as well as gymnastics and volleyball. The Coliseum has a seating capacity of 15,316 for basketball and 15,400 (when chairs are added on the floor) for non-sporting events. The coliseum houses athletic department offices (except football, swimming, and men's tennis) as well as the President's reception area, an auxiliary gymnasium, an equipment room, weight rooms, steam bath, training room, food service areas, photo studio and locker room facilities for staff and athletes. The Coliseum has hosted a variety of events including commencement exercises, alumni gatherings, student convocations, concerts, operas, ballets, and orations by political figures. A renovation to Coleman Coliseum was completed in 2005, adding new offices for coaches and administrators as well as a new ticket office and Tide Pride office. The upgrade also included a revamped main entrance as well as a club level room and new seats throughout the arena.

Gymnastics/Volleyball Practice Center — Built in 1996 as an expansion to Coleman Coliseum, the Practice Center has a 12,500 square foot main practice space and a separate 2,000 square foot aerobics/dance studio. The practice gym features a permanent hardwood floor consisting of two full basketball playing surfaces, which can be converted into three volleyball courts. In 2000, the Crimson Tide volleyball squad began using the gym and dubbed the CAVE (Coleman Auxiliary Volleyball Extension) as its home arena. In the summer of 2003, two sets of permanent, retractable chairback seats were added to the CAVE allowing it to serve as a state-of-the-art volleyball competition center. Capacity for the arena is 1,000 with a standing-room-only capacity of nearly 1,500. The CAVE served as host for the 2005 SEC Volleyball Tournament.

THE UNIVERSITY OF ALABAMA SPORTS BUILDINGS AND FACILITIES (continued)

Thomas-Drew Practice Fields – Located adjacent to the Hank Crisp Indoor Practice Facility and the Administration/ Football Building, the Thomas-Drew Practice Fields serve as the daily home for the Alabama football team. Boasting three full practice fields and a 50-yard artificial surface, the facility permits the Tide to work on all phases of the game simultaneously. The fields were named in honor of former University of Alabama head football coaches Frank Thomas and Harold "Red" Drew. A turf field was added in 2004.

Aquatic Center – The Aquatic Center, which opened in 1981, houses office space for coaches and administration, a complete weight room, dryland training areas, and meeting rooms. The Aquatic Center's main competition pool is 25 yards by 50 meters and seats 1,500. When set up for long course competition, the pool has eight nine-foot wide lanes and when set up for short course competition, the pool can accommodate up to 17 nine-foot wide lanes. The main pool has four diving boards (two one-meter and two three-meter) and a five and ten-meter platform for diving competitions. In addition to the main competition course, the Aquatic Center has an eight-lane 25-yard pool.

<u>University of Alabama Tennis Complex</u> – The University men's and women's tennis teams compete and train at the UA Tennis Complex. In 2004, the Alabama tennis teams christened a new tennis facility that includes 12 competitive lighted courts and a two-sided grand stand area with seating for 1,014. The facility also includes team locker rooms, a player's lounge, coaches offices, public restrooms and a ticket booth/concession stand area. The facility has hosted the SEC Tennis Championships in each of its first two seasons of use.

Athletics Administration/Football Building – In addition to administrative and coaches offices, the football building includes meeting, equipment and locker rooms, as well as a state of the art weight room and training room. It serves as the home for Alabama athletes. The recently renovated weight room now encompasses 22,000 square feet and features the most modern weight and conditioning equipment. Finishing touches were completed on an updated and improved administration level in 2004.

Sewell-Thomas Baseball Stadium – Alabama baseball originally opened play at Thomas Field on March 27, 1948, with a seating capacity of 2,000. On April 6, 1991, a permanent grandstand was opened and the name of the facility was changed to Sewell-Thomas Stadium. In 1978, the facility was renamed Sewell-Thomas Field and with the addition of a permanent grandstand, the complex was dubbed Sewell-Thomas Stadium in honor of former coach Frank Thomas and hall of famer Joe Sewell. The stadium, known as "The Joe" by Alabama fans, saw an addition of 2,000 seats, team locker rooms and coaches offices, along with a pressbox elevator in 2001 to push stadium capacity to 6,118.

Alabama Soccer Stadium – In an elevated field adjacent to the university's student recreation center, the recently completed UA Soccer Stadium is the home of Alabama soccer. The new stadium features a covered spectator grandstand with 1,500 bleacher seats. Underneath the grandstand, the stadium features home and visiting locker facilities, team room, coaches' offices, concession stand, locker facilities for officials and team storage. Other improvements at the facility included permanent brick bench areas and a media center.

The University of Alabama Softball Complex – The Stadium and clubhouse opened in 2000 with a seating capacity of 1,600 and has batting cages large enough to accommodate three hitters at one time. The clubhouse includes offices for the head coach and his staff, a shower area for the coaches, an umpires' locker room, a players' locker room, a fully- equipped training room and a Crimson Tide team room. Two private luxury suites sit on both sides of the state-of-the-art pressbox that includes home and visitor radio booths, a television booth, a booth for the sound system and a media room.

Jerry Pate Golf Center – The University of Alabama men's and women's golf teams have one of the top facilities in the country to call home with the completion of a state-of-the-art Jerry Pate Golf Center practice facility at Ol' Colony Golf Course. Ol' Colony, a 7,041-yard/Par 72 course designed by former Tide standout Jerry Pate, will not only serve as the home for Crimson Tide- sponsored tournaments, but also features a private practice facility for the Alabama squads. The new practice facility includes dressing rooms for both squads along with coaches offices and a media room. In addition to Ol' Colony, the Alabama golf teams also enjoy playing privileges at most of the Tuscaloosa- area courses.
